Education

University of Washington, Seattle	*2016-2020*

- **Batchelor of Arts,** *Linguistics*
- **Batchelor of Science,** *Speech and Hearing Science*

Certifications

CompTIA A+

Skills

Active Directory	Linux	Powershell
Django	POSIX Shell (bash/zsh)	Python
Docker	Postgres	Windows Server

Experience

Ikolith Recreations

Technical Contractor   *2021-2022*

- Wrote and managed utility scripts, mostly in Python and bash, to automate workflow tasks such as document formatting.
- Developed an automated pipeline to convert and compile Markdown documentation into Latex for publication.
- Created a program to partially simulate the evolution of a fictional language over time as a worldbuilding and writing aid

Boxwave

IT Applications Developer   *2023- February 2024*

- Wrote internal tools in Python and C Sharp to automatically fetch up-to-date vendor reports via Amazon's seller API, reducing the time required for daily administrative tasks by an order of magnitude.
- Maintained a Proxmox cluster for hosting various internal web services, and spearheaded the design, implementation, testing, and deployment of automation scripts.
- Acted as the primary technical liaison to management and effectively communicated complex technical concepts to stakeholders

Projects

Dateparse   *Python*

- A pure Python library for parsing natural language expressions about time, like "two weeks ago", "a week before Christmas", "in four months" into Python date objects.

Tarot   *Typescript, React, Express.js, HTML/CSS*

- A demo React/Express web app that draws and presents random Tarot cards. Viewable at pentacles.page.

Other Interests

Ancient languages (Latin, Attic Greek)	Ancient languages (Lisp, C89, Ada)
Constructed Languages	Distance running, cycling
